About This Game

Sensual VR is built for females between age of 18 and 60 without any VR or HTC Vive experience.

You should buy this unique VR experience for: your girlfriend, your sisters, your mother, female family, female friends or a potential date. Also you can use it for Ladies Nights, girlfriends go-outs and real fans of the books and movies of Fifty Shades. Girls find it hilarious and all give 5-stars ratings.

Sensual VR is a real 'Ladies Only' experience built for the HTC Vive. Don't buy this if you are an experienced HTC Vive dude with a lot of VR gameplay and think you are going to get a big gameplay, lots of porn or a high skilled VR environment. It is made for girls and ladies extreme pleasure!

All Shades of VR has an optimised environment for ladies. So the controllers are (extra) easy to use, just use one button the controller (teleporting), you have female hands, you can't make mistakes (that's why it's a easy gameplay), the story is slow and build for good mood and good vibes. Due to STEAM policy we only can offer the Light version, this version is without pornography, nudity and and sexual content. 18+ version is only available in countries where sexual content is permitted by law. Sorry! we really can't help it.

All Shades of VR is a unique in the world VR experience specially made for ladies. It's a #ladiesonly VR experience with

sensual and a soft erotic touch and feeling.

In an escape room setting it is the players' mission to fulfill all wishes of Mr. Purple and please him in any way possible. By being submissive, creative, resourceful and pleasing you will win the heart of Mr Purple and discover new sensual experiences beyond your imagination.

We tested the experience on more than 200 ladies in The Netherlands, Spain, China and Lebanon and all gave a 5-stars rating for the complete story and VR experience.

This is only a 5 minute demo. For \$30. Don't bother.

The full version is locked because of Steam and there's no way to get the full version.. \ud83c\udf83 T\u044f!cked not T\u044f!cked \ud83c\udf83 full price \$29.99 you can only play a 10 min Light Version. I had hoped that was a joke? I tried Steam "Offline" mode still blocked me from Full Monty 18+ XP Room \ud83d\udc4e\ud83c\udfffb

Steam Refunded \ud83d\ude29 see discussions click \ud83d\udc4d icon

\u26aa\u2014 \$29.99 is greedy money grab for no sex play content.

\u26aa\u2014 We can't get anyone to answer back how we buy 18+ Version.

\u26aa\u2014 I can see from the Web Site they have a Mobile VR Truck just for Sensual VR and look to now be renting rooms in popular restaurants around Germany.

I honestly believe until the DEV's of this game have fully exhausted it's Euro revenue stream from VR Room Rentals and VR Mobile Truck. They will not sell us the public it's 18+ XP Room from it's Web Site.

Note to Publisher: Anything less than changing this to a Free Demo from all the above I've stated. Then you don't belong on steam store.. This version of the game only lets you access the Light version, which is only about 10 minutes long. The 18+ version is locked off, and I can't even find out where you're supposed to go to get the full version. The Light version isn't really worth \$22 at all, and consists of a small handful of very simple puzzles.
